Moving Past the Finger Pointing - About Facebook

about.fb.com

Hi Vivek - you may have seen this post today which we issued to provide more context. We do not plan to issue more public posts etc. I imagine you and your team are feeling a little aggrieved - as is the FB team, it's not great to be accused of killing people - but as I said by email I'm keen to find a way to deescalate and work together collaboratively. I am available to meet/speak whenever
